[Poser 8 Serial Number 60](#)

Select, copy and save the code below as `MovieRenderToQueue.py` somewhere in your Poser Python hierarchy.

```
# MovieRenderToQueue.py
# (c) 2019 an0malus
#
# Since PoserPro 11.1.0.35510 removed the RenderToQueue button from the MakeMovie dialog, replace its functionality.
# This is still possible, since the poser.Scene().RenderToQueue() method still includes the isMovie flag.
#
# v1.0 20190206 Initial version. Prompt user for file path to save the rendered movie or image files.
# Initially defaults to PNG image files as Image file type picker is not exposed to Python yet.
#####

version = '1.0'
debug = False
fileExtFmt = '{}.{}'
defaultFile = 'Untitled'
imageExt = 'png'
```

Don't forget to setup the Movie frames, renderer and Image Files selection in the standard dialog, first.

Send an email to support and they'll give you a hack. The button will be back in your hands in 1-2 weeks. (Regarding: Send To Background / Send to Queue)
